# ABOUT US

## LONDON, A MULTIDISCIPLINARY SCHOOL

Multidisciplinarity remains the main strength of OMNES Education London School (OELS), with students coming from all the schools of the OMNES Education Group and Partner Universities. We welcome more than 100 speakers in the fields of **business management, engineering, finance, political science, advertising**, and **luxury**.

A stay at OELS allows students to experience international life and improve their language skills while following a programme that complements their studies.

Each programme includes activities to develop knowledge of the professional and socio-economic environment in London: networking, company visits, masterclasses, meetings with experts of world-renowned groups (e.g. Google, HSBC, WPP), cultural outings, etc.

OMNES Education London School is a springboard to start an **international career**.

### MARYLEBONE

## CURRICULUM

Our programmes put students in close contact with professionals and alumni, allowing them to start **building their professional network**.

To ensure that students have the cutting edge knowledge employers are searching for, our professional lecturers constantly update their material.

The programmes have been designed to provide the necessary information and skills to **excel in a specific field**.

That's why students are required to take all the modules in a given programme and cannot mix modules of different programmes.

## EXTRA-CURRICULAR ACTIVITIES

The school organises out of campus opportunities such as day trips to Oxford/Cambridge, company visits, workshops, cultural and sporting sessions.

Some of those activities are managed by students as they have the possibility to join the Student Society and actively contribute to campus life (e.g. fitness boxing, yoga, drama club, tea-time language exchange).
